Senior Software Engineer

Innovative and results-driven Senior Software Engineer with over 7 years of experience in full-stack development. Proven track record in leading teams and delivering high-quality software solutions.

Technical Skills

JavaScript (Node.js, React), Python, Java, SQL, AWS, Docker, Kubernetes

Soft Skills

Leadership, Problem-Solving, Communication, Team Management, Adaptability

Experience

Senior Software Engineer — Tech Solutions S.p.A. (Mar 2018 – Present)

- Led a team of 5 developers in the design and implementation of a scalable cloud-based platform.
- Architected and developed microservices using Node.js and React, improving system performance by 40%.
- Mentored junior developers and conducted regular code reviews to maintain high coding standards.
- Collaborated with cross-functional teams to define, design, and ship new features.
- Implemented CI/CD pipelines using AWS CodePipeline and AWS CodeBuild, reducing deployment time by 30%.

Software Engineer — Innovatech S.r.l. (Jun 2015 – Feb 2018)

- Developed and maintained web applications using Java and Python, enhancing user experience and functionality.
- Designed and implemented databases using SQL, optimizing query performance and reducing response times.
- Participated in agile ceremonies, including daily stand-ups, sprint planning, and retrospectives.
- Collaborated with UI/UX designers to ensure high-quality and intuitive user interfaces.
- Troubleshooted and debugged complex issues, providing timely resolutions and minimizing downtime.

Education

Master of Science in Computer Science — Sapienza University of Rome (2015)

Languages

Italian (C2), English (B2), French (A2)
