Data Scientist

Data Scientist with over 5 years of experience in machine learning, statistical analysis, and data visualization. Proven track record of delivering data-driven insights and solutions to complex business problems. Strong background in computer science and mathematics.

Technical Skills

Python, R, SQL, TensorFlow, Keras, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn

Soft Skills

Problem-solving, Critical thinking, Communication, Teamwork, Adaptability

Experience

Data Scientist — Capgemini (Jan 2018 – Present)

- Developed and implemented machine learning models to predict customer churn, resulting in a 15% reduction in churn.
- Collaborated with cross-functional teams to identify business opportunities and drive data-driven decision-making.
- Designed and deployed A/B testing frameworks to optimize marketing campaigns and improve customer engagement.
- Built and maintained data pipelines to ensure data quality and availability for analysis.
- Mentored junior data scientists and provided guidance on best practices and industry standards.

Data Analyst — Orange (Jun 2015 – Dec 2017)

- Performed exploratory data analysis to uncover insights and trends in large datasets.
- Created interactive dashboards and visualizations to communicate findings to stakeholders.
- Developed predictive models to forecast sales and inventory needs, leading to a 10% increase in revenue.
- Collaborated with business units to define key performance indicators (KPIs) and track progress against goals.
- Automated repetitive tasks using Python scripts, saving 20 hours per week in manual data processing.

Education

Master of Science in Computer Science — Ecole Polytechnique (2015)

Bachelor of Science in Mathematics — Université Claude Bernard Lyon 1 (2013)

Languages

English (C1), French (C2), Spanish (B2)
