Senior Software Engineer

Senior Software Engineer with 8+ years of experience in full-stack development, specializing in JavaScript and Python. Proven track record of leading projects and mentoring junior developers. Passionate about clean code and agile methodologies.

Technical Skills

JavaScript, Python, React, Node.js, Django, SQL, Git, AWS

Soft Skills

Leadership, Mentoring, Problem-Solving, Teamwork, Communication

Experience

Senior Software Engineer — TechSolutions SAS (Jan 2018 – Present)

- Led a team of 5 developers in the design and implementation of a new web application, resulting in a 30% increase in user engagement.
- Architected and developed RESTful APIs using Node.js and Django, improving system performance by 40%.
- Mentored junior developers, conducting regular code reviews and providing constructive feedback.
- Collaborated with cross-functional teams to define, design, and ship new features.
- Implemented CI/CD pipelines, reducing deployment time by 50%.

Software Engineer — Innovatech Ltd (Mar 2014 – Dec 2017)

- Developed and maintained web applications using React and Angular, enhancing user experience and functionality.
- Participated in the full software development life cycle, from requirements gathering to deployment.
- Optimized database queries, resulting in a 25% improvement in application response time.
- Worked closely with QA engineers to identify and fix bugs, ensuring high-quality deliverables.
- Contributed to the adoption of agile methodologies, improving team productivity and collaboration.
