Senior Software Engineer

Results-driven Senior Software Engineer with 12 years of experience in full-stack development. Proven expertise in designing and implementing scalable web applications. Strong advocate for clean code and agile methodologies.

Technical Skills

JavaScript (Node.js, React), Python, Java, SQL, AWS, Docker, CI/CD

Soft Skills

Leadership, Problem-Solving, Team Collaboration, Communication, Adaptability

Experience

Senior Software Engineer — TechSolutions GmbH (Jan 2018 – Present)

- Led a team of 5 developers in designing and implementing a scalable SaaS platform, resulting in a 30% increase in user engagement.
- Architected and developed a microservices-based system using Node.js and React, improving system performance by 40%.
- Mentored junior developers, conducted code reviews, and established best practices for code quality and maintainability.
- Collaborated with cross-functional teams to define, design, and ship new features, ensuring alignment with business objectives.
- Implemented CI/CD pipelines using AWS CodePipeline and CodeBuild, reducing deployment time by 50%.

Software Engineer — Innovatech AG (Mar 2012 – Dec 2017)

- Developed and maintained web applications using Java, Spring, and Angular, serving over 10,000 daily active users.
- Designed and implemented RESTful APIs, improving data retrieval efficiency by 35%.
- Collaborated with UX designers to create intuitive and responsive user interfaces.
- Participated in agile ceremonies, including daily stand-ups, sprint planning, and retrospectives.
- Troubleshooted and resolved production issues, ensuring minimal downtime and high availability.

Education

Master of Science in Computer Science — Technical University of Munich (2011)
