Senior Software Engineer

Senior Software Engineer with 8+ years of experience in full-stack development. Proven track record in designing and implementing scalable web applications. Adept at leading development teams and driving projects from conception to completion.

Technical Skills

JavaScript (Node.js, React), Python, Java, SQL, AWS, Docker, Kubernetes

Soft Skills

Leadership, Problem Solving, Communication, Teamwork, Adaptability

Experience

Senior Software Engineer — Tech Solutions GmbH (Jan 2020 – Present)

- Lead a team of 5 developers in designing and implementing a scalable web application for a major client.
- Architected a microservices-based system resulting in a 30% improvement in system performance.
- Mentored junior developers, conducted code reviews, and established best practices for the team.
- Collaborated with cross-functional teams to define, design, and ship new features.
- Utilized AWS services to deploy and manage infrastructure, ensuring high availability and scalability.

Software Engineer — Innovatech AG (Mar 2016 – Dec 2019)

- Developed and maintained web applications using JavaScript (Node.js, React) and Python.
- Integrated third-party APIs to enhance application functionality and user experience.
- Participated in Agile ceremonies, including daily stand-ups, sprint planning, and retrospectives.
- Optimized database queries and improved application performance by 25%.
- Collaborated with UI/UX designers to implement new features and improve existing ones.
