MLOps Engineer

Results-driven MLOps Engineer with over 5 years of experience in designing, building, and deploying machine learning models. Proven track record in optimizing model performance and improving business outcomes. Adept at collaborating with cross-functional teams to deliver end-to-end machine learning solutions.

Technical Skills

Machine Learning, Deep Learning, TensorFlow, PyTorch, Kubernetes, Docker, AWS, Azure, CI/CD, Python, R, SQL, Scala

Soft Skills

Problem-Solving, Communication, Teamwork, Adaptability, Leadership, Time Management

Experience

MLOps Engineer — Tech Solutions Ltd (Jan 2020 – Present)

- Designed and implemented a scalable machine learning pipeline, reducing model training time by 40%.
- Collaborated with data scientists and engineers to deploy machine learning models on AWS and Azure.
- Developed and maintained CI/CD pipelines for machine learning models, ensuring seamless integration and deployment.
- Optimized model performance by implementing hyperparameter tuning and feature engineering techniques.
- Mentored junior team members and conducted code reviews to maintain high coding standards.

Machine Learning Engineer — Data Insights Inc (Mar 2017 – Dec 2019)

- Developed and deployed machine learning models to solve complex business problems.
- Designed and implemented A/B testing frameworks to evaluate model performance.
- Collaborated with cross-functional teams to gather and preprocess data for model training.
- Conducted extensive research to identify and implement state-of-the-art machine learning algorithms.
- Documented machine learning models and their performance metrics for future reference.

Education

MSc in Computer Science — University of Porto (2016)

BSc in Computer Science — University of Porto (2014)

Languages

English (C2), Portuguese (C2), Spanish (B1)
