NLP Engineer

NLP Engineer with 8 years of experience in designing and implementing machine learning models for natural language processing. Proficient in Python, TensorFlow, and NLTK. Strong background in data analysis and software engineering.

Technical Skills

Python, TensorFlow, NLTK, SpaCy, Scikit-learn, Keras, Pandas, NumPy, SQL, Git

Soft Skills

Problem-solving, Team collaboration, Communication, Adaptability, Time management

Experience

Senior NLP Engineer — Tech Solutions Ltd (Jan 2020 – Present)

- Lead a team of 5 engineers in developing and deploying NLP models for client projects.
- Designed and implemented a transformer-based model for machine translation, improving accuracy by 15%.
- Collaborated with data scientists to preprocess and analyze large datasets for NLP tasks.
- Optimized existing NLP models to reduce inference time by 30%.
- Mentored junior engineers and conducted code reviews to maintain high coding standards.

NLP Engineer — Data Insights Inc (Mar 2016 – Dec 2019)

- Developed NLP models for sentiment analysis and named entity recognition using Python and NLTK.
- Implemented a custom tokenization and lemmatization pipeline, improving text processing efficiency.
- Worked closely with stakeholders to understand business requirements and translate them into technical specifications.
- Conducted extensive data cleaning and preprocessing to ensure high-quality input for NLP models.
- Participated in agile development processes, including sprint planning and daily stand-ups.

Education

MSc in Artificial Intelligence — University of Edinburgh (2015)

BSc in Computer Science — University of Manchester (2014)

Languages

Spanish (B2), English (C2)
