Backend Engineer

Backend Engineer with 8+ years of experience in designing, developing, and maintaining robust server-side applications. Proficient in various programming languages and frameworks, with a strong focus on performance optimization and security. Adept at collaborating with cross-functional teams to deliver high-quality products.

Technical Skills

Java, Python, Node.js, Spring Boot, Django, Express.js, SQL, NoSQL, Redis, AWS, Docker, Kubernetes, Microservices, RESTful APIs

Soft Skills

Problem-solving, Team collaboration, Effective communication, Time management, Adaptability

Experience

Senior Backend Engineer — Tech Solutions S.A. (Jan 2020 – Present)

- Designed and implemented a high-performance microservices architecture, improving system scalability and reducing latency.
- Led a team of 5 engineers in the development and deployment of new features, ensuring on-time delivery and high code quality.
- Optimized database queries and implemented caching strategies, resulting in a 30% increase in application response time.
- Collaborated with the DevOps team to automate the CI/CD pipeline, reducing deployment time by 50%.
- Conducted regular code reviews and mentored junior developers, fostering a culture of continuous improvement and knowledge sharing.

Backend Engineer — Innovatech Systems (Mar 2016 – Dec 2019)

- Developed and maintained server-side applications using Java and the Spring Boot framework.
- Designed and implemented RESTful APIs, integrating with various third-party services and databases.
- Participated in the migration of legacy systems to a modern, cloud-based architecture using AWS services.
- Collaborated with frontend developers to ensure seamless integration of backend services with the user interface.
- Implemented security best practices, including authentication, authorization, and data encryption.

Junior Backend Engineer — Software Development Inc. (Jun 2013 – Feb 2016)

- Assisted in the development and maintenance of backend services using Python and the Django framework.
- Wrote and optimized SQL queries to improve database performance and reliability.
- Participated in the design and implementation of new features, following Agile methodologies.
- Conducted testing and debugging to ensure the quality and stability of the applications.
- Collaborated with cross-functional teams to gather requirements and provide technical solutions.

Education

Master of Science in Computer Science — Sorbonne University (2013)

Bachelor of Science in Computer Science — University of Lyon (2011)

Languages

French (C2), English (C1), Italian (B2)
